

THE PURPOSE PRIZE

Ro Wyman & The CCHIPs Project

Pioneering A New Stage Of Life And Work

"The Purpose Prize initiative was established by Civic Ventures, a nonprofit think tank that is leading the call to engage millions of experienced individuals in becoming a force for social change. Civic Ventures focuses on creating pathways to encore careers (that provide continued income) doing work that is personally fulfilling and helps address some of society's biggest challenges.

The Purpose Prize recognizes adults over 60 making extraordinary contributions in their community, nationally or internationally. In the four years since the program was launched, nearly 4,000 adults have been nominated, more than 200 have been named fellows, and nearly 50 have been named Prize winners, taking home up to \$100,000 to support and expand their work."

Ro's CCHIPs Project in Rwanda was recognized and she was named a 2008 Purpose Prize Fellow.
